The MTN Advantage

Modern goaltenders are required to do more than just stopping the puck but are required to control the flow of each game. MTN is about keeping the puck out of the net which requires goaltenders to communicate clearly, control rebounds, break up centering passes, direct the breakout and so much more.

"Our goalie learned a lot from you guys and I really appreciate what you do. He definitely enjoyed it for the last two years."
- Goalie Parent

Goaltenders must be leaders on and off the ice beginning at the Atom/PeeWee levels. Young goaltenders must be encouraged to learn advanced techniques rather than be held back. MTN teaches as many advanced techniques as possible while encouraging growth in goaltender self confidence.

Only nine goaltenders will be accepted into the Atom/PeeWee Camps. A very low student to instructor ratio combined with low registration ensures attention to details.

All goaltenders must be eligible to play Atom or PeeWee hockey.

MTN On the Ice

MTN instructors use the newest goaltending knowledge and training techniques to help each goaltender become fundamentally sound and efficient.

MTN uses an analytical eye to pinpoint ways to add to the existing strengths of each goaltender's game. MTN's job is to help you not change you.

"We have spent a lot more for a lot less!"
- Goalie Parent

All on ice drills are done in the defensive zone to ensure more game like situations. The more game like the drills the better.

MTN exposes goaltenders to some of the newest training techniques including mini pucks and screen boards.

MTN's on-ice program is intense, energizing and fun!

MTN Off the Ice

MTN's hot stove/theory sessions provide opportunities to discuss and analyze issues pertaining to goaltenders. Parents and Coaches are encouraged to take part in ALL on-ice and off-ice sessions.

Daily topics focus on goaltender responsibilities, mental training and preparation, on ice tactics, off ice conditioning, coaching, and goaltender evaluation.

Goaltending requires excellent conditioning. MTN's goaltender specific dryland training is a part of the daily routine.

Emphasis on the mental aspects of goaltending and the encouragement of coach/parental involvement is what sets Mind The Net apart from the competition.

"Never knew there was so much to learn."
- Goalie Parent
